

Gel Mats

Art. 904-01

Art. 904-11

Art. 904-12

Our gel mats offer countless possibilities to train children's coordination and balance through gymnastics exercises and motor skill games.

The colorful filling (water/oil mixture) of the gel mats constantly transforms into new exciting shapes.

Our gel mats are 100% recyclable and have been tested according to EN71 standards.

To keep the gel mats in the best condition for as long as possible, please consider the following points:

1. Clean the surface with common cleaning and disinfecting agents.
2. Clean the backside (rubber layer) only dry, as the rubber coating may peel off.
3. Maximum weight capacity up to 90 kg.
4. Place gel mats only on flat surfaces, as there is a risk of breakage otherwise.
5. Avoid wedging gel mats under objects and prevent strong impacts, especially on the corners.
6. Use only for motor skill activities.
7. Use under adult supervision only.
8. Do not throw or drop gel mats.
9. Damaged mats may leak liquid that can cause irreparable stains on floors.

Größe: 50 x 50 cm

ACHTUNG! Kein Spielzeug.
WARNING! No toy.
ATTENTION! Pas un jouet.
