Pedalo[®] Rondolo – the rolling wheel.

Once it is rolled, there are hardly any obstacles. Over rough and smooth it goes the way until the opponent player catches it. Depending on strength and reaction time the distance between the players is individually chosen. With Pedalo[®] Rondolo it is the same like playing with balls – children are fascinated, they always run after and have a lot of fun with it.

Further game variants play alone, with a friend or in groups:

- Target shooting on skittles.
 - Analogous to ball sports score with the wheel. Ideal to use for team games.
 - Run through diverse courses.
Put a wooden strip on the floor – Who succeeds in balancing the wheel over the line without the wheel touching the floor?
 - Drive off given forms, figures or letters. Use a chalk to paint some lines or pictures on the floor for example.
- The Pedalo[®] Rondolo with high fun factor promotes quick reaction capabilities and dexterity. It is also suitable for combination plays with original Pedalo[®] and other exercise equipment.

Specification:

2 vessels 93 cm (rod solid ash, fork birch multiplex); 1 wheel ø 22 cm birch wood
